ANGIE RODRIGUEZ

FRONTEND DEVELOPER

Junior web developer excited about all things React, Rails, and more. I enjoy taking the initiative to learn, increase output for the company, and collaborating with my fellow coworkers. I always strive to put forth my best and find ways to improve, given my on-the-job curiosity and stickler for even the smallest of details.

PROJECTS

Magic Pong   View on **Heroku**   **Github**
HTML, CSS, JavaScript
.
Recreated the classic Pong game with the HTML Canvas API
User controls right paddle with up and down keyboard arrows

TravelBucket   View on **Heroku**   **Github**
